

How to Download and Activate the Freading App

These directions were written for Apple devices, but the process is similar for Android devices.

1. From the Apple App Store, enter a search for Freading.
2. Select the app by tapping **Free**.
3. Tap again on the green **Install App** icon.
4. Enter your Apple ID and password and then tap **OK**.
5. The Freading app icon will appear on your screen as it downloads. Installation may take a couple of minutes
6. Once the app is installed, you will need to activate it with an Adobe ID. If you do not have an Adobe ID, you can create one on the Adobe website. Go to www.adobe.com, tap **Sign In**. Once on the sign-in page, tap on **Create an Adobe ID** and enter the required information.
7. Once the app is finished downloading, tap on the icon to open it.
8. When you open the app you should see a prompt to authorize the app by signing in with your Adobe ID.
9. Enter your Adobe ID and password, and then tap **Authorize**.
10. The Freading app has now been activated with your Adobe ID, and you are ready to start downloading Freading e-books. For more information on searching for and downloading titles, see our handout entitled *How to Use the Freading App for iPad*.
