

# book muncher origami bookmark

Start with a square piece of paper. Place it in front of you in the shape of a diamond.

Fold the bottom corner up to the top corner.

With the triangle pointing up, fold the left corner up to meet the point at the top.

Fold the right corner up to meet the point at the top. You should now have a square with a seam down the diagonal.

Now fold the two sides back out so you can see the creases you created.

Fold the first layer of the top point down to the bottom center and crease.

Bring the bottom right corner up, tuck in the pocket and crease.

Bring the bottom left corner up, tuck in the pocket and crease.
