

Watercolor Tape Resist Painting

Instructions

1. Gather your supplies:
 - watercolors and paintbrush
 - tape
 - canvas
 - water cup and paper towel

2. Cut or tear the tape.

Make a design on your canvas.

Press down hard!

3. Paint with watercolor.

The paint will bead up at first. Keep adding layers of paint and it will smooth out. Don't add too much water. A little goes a long way!

4. Let dry.

5. Remove the tape.

6. Admire your work! Leave your work as it is, or add more! You decide. When you are done, clean up your workspace

Try this!

Make another piece with recycleables. Use a cereal box or cardboard as your canvas!

Experiment with color! Mix colors to create new colors.

Can you guess which two colors were mixed here?

Talk about the colors you see!
