L.E. Phillips Memorial Public Library hosts a Community Information Directory (CID), an online database providing descriptions and contact information on organizations, groups, and service organizations that primarily serve Eau Claire and its neighboring communities. L.E. Phillips Memorial Public Library maintains information within the CID.

The resources and services the L.E. Phillips Memorial Public Library included in the CID are: non-profit health and human services, education, employment, consumer, ethnic, recreation, and clubs located mainly in Eau Claire County. Most resources and services listed are non-profit. For-profit organizations are included only if deemed unique or hard to find.

Any agency or organization that wishes to be included in the directory and has been denied by the Library Director based on this policy may ask for the decision to be reviewed by the L.E. Phillips Memorial Public Library Board of Trustees. The Board will evaluate the request in terms of this policy at the next full Board meeting following the request.
