

THE LIBRARY SPEAKS (May 3, 1939)

Theme Song -

Studio Announcement -

M.L. Good Morning, friends of the library. This week the accent seems to be on youth. It is national boys and girls week, Child Health week, and Baby Week. In cooperation with the local

committee on Child Health we are displaying material on child nutrition. High school classes have been writing essays on conservation. Another group is writing on eggs as a food. Have you been asked to speak at a Mother Daughter banquet or to plan a program for Mother's Day. Scores of people have been using this material the past few weeks. The reading and reference rooms are gay with posters of outdoor sports and recreation which have been entered in the annual Helen Mears art contest of the Wisconsin federation of Woman's clubs. Only 8th grade students could compete in this contest. If you are down town won't you stop in and see these strikingly bright and clever posters made by both city and country school children.

And now we are turning the program over to the Junior Red Cross group of the Junior high school and St. Patrick's school. Miss Madeline Dougherty of the Junior High School faculty will be your next speaker.

M.L.- Speakers this morning have been Madeline Dougherty, Barbara Fox, Doris Steland, Joyce Stolen, Virginia Smith, Audrey Meier sang the club song.

Until next week at this same time when we shall present a Mother's Day program, your public library staff wishes you a pleasant week with good books as your daily companions.
