

my Dear

Say March 11 1880

by the help of Pillows I am able to sit up in bed and with a trembling
hand and feeble frame to direct our line to you the Mercy of God
how great I have no disorder about me it is weakness brought on by
complaints which I am subject to I have been confined to the bed
4 or 5 days and yet the cause was removed by you I gave over work I was
not sensible how weak I was untill I was obliged to call Harriet to
assist me to bed from which I have not been up only to have it
made I am very weary and can only say Pray for my Faith and
life if you think it worth your time. Martha Finch
