Enterprise, Miss., Dec 29th 1888

My dear Harry,

I learn that there is in all probability about what we need here, I shall look things over more fully before leaving, fact is the more I see the more pleased I am. Grass is as natural here as is the water which boils from the ground all over forming beautiful little streams. Health is superb, and people nice especially the negroes. There is no trouble to acclimatize stock. In fact it is the home of them all. I go out in 30 mins. to look at a 320 acre tract

2^d price \$6 per acre. no build-
ing 100 acres improved.
Will my man & must
leave you. Will write as I get
time. Give my love to my
little wife.

Do not expect to go
to Hammond. I will see her not. Will
see there after receipt of this
Yours
Marvin
