
2. Fold in half lengthwise to 1 by 5 inches, then fold again to ½ by 5 inches.

3. Fold in half to create a V shape.

What you’ll need . . .

» 276 book page strips
» Cardboard for base
» Patience
4. Fold each end toward the crease in the bottom of the V.

5. To lock two V-shaped pieces together, insert the two tabs (top of the Vs) of one piece into the two slots in the other piece. They will lock together. Next, add a third piece and repeat this process until you have linked 44 pieces.

6. Turn the strip into a circle by interlocking the last tab into the first. The tabs at one end will need to be reopened to fit into the slot on the other end. Complete a total of six circles.

7. Fold 12 more strips of paper in half lengthwise to 1 by 5 inches, then fold again to ½ by 5 inches. Stack the circles and secure them by weaving strips through successive layers. This can be done on the outside of the basket. Cut a piece of cardboard to fit inside the basket. Compression should keep the base in place without glue.
