

PROJECT CARD

Book Mat

What you'll need . . .

- » Book pages
- » Rolling tool
- » White Glue
- » Glue brush
- » Bobby pins

1

Begin with book pages cut to 8 by 8 inches. Use a rolling tool, such as a dowel, to roll the pages.

2

Apply white glue with a glue brush to the final edge of the paper page, then complete the roll. Allow the glue to tack up before sliding the roll off. Create 20 rolls.

3

Once the rolls are dry, hold two together and slide a bobby pin through the center of each. Repeat on both ends until all rolls are joined together.
