What you’ll need . . .

» 1 piece paper
» Found, purchased, or homemade embellishments

1. Start with a square piece of paper. Rotate it as shown.

2. Fold paper in half to make a triangle.

3. Fold one of the long points to meet the middle point and make a crease. Unfold. Repeat with other side.
4 Fold one half of the middle point down to touch the bottom of the triangle. This creates the beginning of a middle “pocket.”

5 Tuck one of the long points into the new middle pocket. Repeat with the other side.

6 This is the base of your origami bookmark. Now add some bling and you’re golden!
