

PROJECT CARD

Perler Pixel Art

What you'll need...

- Perler beads
 - Perler ironing paper
 - Template
 - Perler pegboard (29X29)
 - Clothes iron*
- *An iron should always be used under adult supervision.

1

Choose a template and find the appropriate color for the Perler beads. The bead colors and quantities are listed above each template.

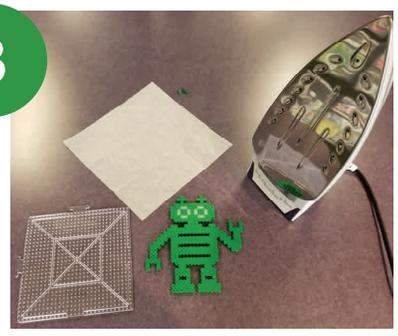

2

Begin placing the beads in their appropriate locations on the Perler pegboard. Each template has numbers and letters for reference location, but pegboards do not. To get started, find a template point by counting from an edge or the middle of the pegboard. We recommend you work your way out from the middle and upward across the template. You can count each row or the length of each edge. If you have difficulty working with small pieces, try a tool like a tweezers or pliers.

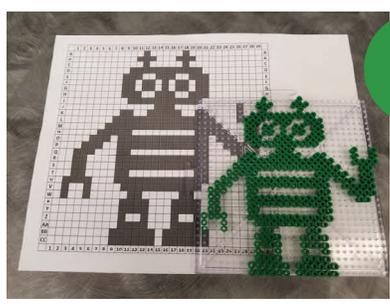

Once you complete the entire template on your pegboard, it's ready to be ironed. Preheat an iron to a medium temperature. Our iron works well at about 4 for the heat setting. Place the finished piece on a level surface and cover it with a piece of ironing paper. Iron the pixel art until you can see all of the beads through the sheet with minimal gaps between the Perler beads. This should take around 30-60 seconds of ironing. Keep the iron moving in circular motions to help distribute the heat and do not press down too hard.

3

4

Let it cool for a few seconds before removing the ironing paper. Carefully remove the Perler art from the pegboard. Flip the Perler art over and place the ironing sheet over it again. Follow the same instructions for ironing the back. Carefully peel the ironing paper off again. *Voila!* Your Perler pixel art is done.
