

# PROJECT CARD

## Tape Resist Painting

### What you'll need ...

- » Canvas (or sturdy paper)
- » Masking tape (or painter's tape)
- » Paint
- » Paint brush
- » Palette

1

Firmly attach torn masking tape to canvas in a fun design, or use the tape to create a geometric pattern. Press edges down securely.

3

Gently peel off the masking tape. (You can take it off right away, or let the paint dry first.) Once dry, display your beautiful art for everyone to admire.

2

Select your color(s), and brush over the masking tape, completely covering the canvas.
