**Pet Treat Jars**

What you’ll need…

- Mason Jar
- Acrylic Paint
- Paint Brush
- Painters’ Tape
- Scissors
- Black Sharpie

1. Choose one of our pre-made designs, or create your own by drawing a design on the painters’ tape, then cutting it out.

2. Place the design where you want it on your mason jar and make sure it is smooth and tight on the surface. (You don’t want paint leaking under the edges!)
Apply a thin, even coat of acrylic paint to the jar. Allow the paint to dry for at least one hour.

Remove the tape from the jar and embellish as you wish.
